## IF YOUR JOB WAS AT STAKE

The private automobile driver has much to learn, so far as safety is concerned, from the operator of commercial vehicles.

From 1927 to 1934, the number of passenger cars registered increased 7 1/2 per cent—while the number of such cars involved in fatal accidents rose 55 per cent.

By contrast, during the same period the number of trucks in use increased 11 per cent—while the number involved in fatal accidents rose only 5 per cent. Similar favorable records were made by buses and taxicabs.

The private driver is his own boss. He can take chances, get in accidents, and be as reckless and incompetent as he pleases without losing his "job"—unless the authorities step in. The commercial operator has to drive safely—or look for another calling. The reckless and incapable driver lasts about as long with a commercial vehicle concern as does a snowball in Hades—and the accident figures reflect that situation accurately.

If every driver adopted the attitude that his job and his livelihood depended upon his being safe and competent the accident toll would go into a tail spin at once. As a matter of fact, he has something even more vital at stake whenever he takes the wheel—his life and the lives of others. Thirty-five thousand people died unnecessarily last year because of recklessness or incompetently driven automobiles. Will that happen again?

## "PREMATURE BIRTH"

In a recent address, F. W. Peck, Cooperative Bank Commissioner, observed that not all farm cooperatives live to a ripe and successful old age.

Some of them suffer from "premature birth"—caused by over-confidence, inadequate capital, failure to fill a real need of producers, poor market connections, lack of understanding of successful business methods, and a weakness for making great promises that cannot be fulfilled. These cooperatives die young.

This simply emphasizes a fact that should be more widely known—that cooperative marketing isn't a form of magic. You can organize a so-called co-op, but unless it rests on a sound basis, you can't make it work to advantage.

The cooperatives which have really done things for farmers have all been organized on sound, realistic business principles. They have had competent executives to run their affairs. They have had sufficient financing. And they have come into being because of a definite need for their services.

Good cooperatives mean eventual prosperity for the farmer—stable and permanent prosperity. Poor co-operatives work against the very ends they espouse.

## THE HOLE IN YOUR POCKET

Press dispatches from Washington state that in the last twelve months \$7,375,000,000 has been spent, which, with the \$7,000,000,000 that was spent the pre-

ceding year, makes a total peacetime record spending of \$14,475,000,000 for the past two years. Money has been spent twice as fast as it has been collected from the taxpayers. But all the spendings and all the borrowed money must eventually be extracted from the taxpayers' pockets.

At the end of the new fiscal year, it is estimated the national debt will be approximately 35 billion dollars or a per capita debt of \$270 on every man, woman and child in the country.

These figures are so staggering in size that one cannot grasp them. But the individual tax bills of various kinds that will soon be coming due, can be readily understood by every taxpayer whose pockets will be emptied in order to pay them.

Colonel Robinson, of the Yakima, Washington, Republic, in answering a "reactionary" citizen who asserted that taxpayers should have a voice in how their money is spent and that it should be spent as economically as possible, said:

"The idea that tax money should be spent economically is just as far out of date as the other. If tax money were spent economically, there wouldn't be more than half of it spent, and that fact alone is sufficient to condemn the idea. The prevailing thought is to spend public money uneconomically, so that more funds can be raised and spent, thus putting more money into circulation and increasing the purchasing power of the people."

Sarcastic as is this paragraph of the Colonel's it states a distressingly plain truth. Its lucidity is positively flawless. Some day the people will wake up to the fact that they pay the bill for all the "political presents" that are given to them.

## STATESMEN VS. HYPOCRITES

Every national economic crisis develops both statesmen and hypocrites.

It takes much less brains or courage to be a hypocrite than to be a statesman.

It takes nerve to tell the truth to people who have been misled or misinformed.

The State of Oregon is fortunate in having a governor, General Charles H. Martin, who sticks by his oath of office and says, "When I was inaugurated, I became governor of the whole people, and that is what I intend to be throughout my term."

In dealing with the lumber strike in Oregon and Washington, Governor Martin sets an example for all public officials in handling labor disputes. He says:

"Men have a right to picket and the right by moral suasion to try to get other men to stay away, but when thugs and scoundrels try to do what five hundred men from Portland tried to do to a mill in Forest Grove, that's intimidation."

"Everyone has the same rights under the Constitution—man or woman, rich or poor, white or colored. If a man wants to work and an employer wants to hire him, that man should be guaranteed the right to work. No one questions the right of a working man to collective bargaining. If he wants to improve his working conditions, he has a perfect right to quit."

That is sound Americanism and Governor Martin has made it clear that no labor group or industrial group is going to infringe upon the laws that were drawn to protect all the people—union man or non-union, small employer or large employer.

It is good tonic to find a governor making such straightforward statements and backing them up with the police power of the state to protect the life, property and jobs of "all" the people. That is courage, not hypocrisy.

## TREVOR

Trevor school district Number 7 held its annual school meeting at the school house Monday evening with twenty-three present. John Mutz was re-elected clerk.

Miss Adeline Oetting, Oak Park, is spending her vacation with the home folks. On Monday she and her brother, Lewis, were Chicago visitors.

Mrs. Harold Mickle attended the funeral of a friend at Twin Lakes on Wednesday.

Miss Bernice Hamer, Chicago, spent the past week with her cousin, Lucille Schumacher.

Mr. and Mrs. George Barhyte, Chicago, are spending a few days with their nephew, Charley Barhyte and family.

The Willing Workers enjoyed a pot luck dinner at the Nellie Runyard grove on Thursday afternoon. They plan to meet in the same place in two weeks.

George Letzer, Chicago, spent last week with his cousins, Albert and Kathryn Letzer, at Diana Lodge, Camp Lake.

Kenosha visitors on Friday were: Mrs. Luana Patrick, Mrs. Harry La-bone, Mrs. William Evans, daughter Marguerite, and Miss Sarah Patrick.

Frank Moran has returned from the Kenosha hospital much improved.

Mr. and Mrs. Albert Mutz returned to their home in Chicago Saturday after spending a couple of weeks vacation at Diana Lodge, Camp Lake.

Illiam Patrick, Mrs. William Kruckman and son, James, Burlington, were Sunday visitors at the Patrick home.

Mr. Patrick is spending a few days with his nephew, Milton Patrick.

Mr. and Mrs. Willis Sheon, Mrs. Jessie Allen and daughters, Miss Daisy Mickle and Champ Parham enjoyed a picnic dinner at Lake Geneva Sunday.

Mr. and Mrs. Will Janks and daughter, Joan, Chicago, called on their sister, Mrs. Pete Schumacher and family Saturday evening.

Mrs. Ed Mutz is entertaining her niece, Miss Doris Melster, Waterloo, Iowa.

Mrs. Lizzie Hamer, Chicago, called on her brother, Pete Schumacher and family, Sunday. Lucille Schumacher returned home with her for a visit.

Roy Copper, Chicago, spent a few days of the past week with Mrs. Mattie Copper and daughter, Pauline.

Mrs. Elsie Miller and son, Frederick, Chicago, visited at the Charles Oetting home Saturday.

Will Hanneman, Burlington, called on his sister and brother-in-law, Mr. and Mrs. Joseph Smith, Sunday.

Betty Jane Martin returned to her home in Waukegan Saturday after spending a couple of weeks at the Oetting home.

Mr. and Mrs. Otto Wandry, Forest Park, and Mrs. William Castenholz and son, Oak Park, visited Thursday at the D. A. McKay home.

The Trevor Leaders 4-H club held a meeting at Social Center hall Wednesday evening.

Miss Adeline Oetting motored to Madison. Her sister, Elvira Oetting returned with her to spend her vacation with the home folks.

Mr. and Mrs. Spencer, Chicago, Mr. and Mrs. Pete Peterson, Kenosha, and Mrs. Sophie Schubert, Chicago, spent from Thursday till Saturday night at the John Rompesky home.

Mr. and Mrs. Jim Cobb, daughter and son-in-law, Aurora, Ill., spent Sunday with Mrs. Mattie Copper and family.

Sunday callers at the Charles Oetting home were: Mr. Oetting's nephew, Herman Oetting, Berwyn, Ill.; George Oetting and son, Binky, and brother-in-law, Mr. Robert Walsh, Riverside, Ill.

## MR. PIKE

By R. H. WILKINSON  
© Daily Syndicate—WNU Service.

IT HAD rained the night before. The grass on the common was not yet wholly dry, though the hour was close to nine in the morning, and the precipitation had long since ceased.

The sun occasionally looked from behind scudding clouds.

Mr. Pike, gentleman of the streets, member of that vast and ever-increasing army of unemployed (but, by choice) paused at the edge of his favorite grass plot, stretched, yawned, gazed judicially up at the weather, stooped and fished the spears of green with a flattened hand.

A look of doubt and annoyance replaced the usual complacency of his expression.

The morning was well advanced; 8:45 was the accustomed hour that Mr. Pike stretched out full length in the warm sunshine of his favorite grass plot and gave himself over to slumber.

Still hearing the look of annoyance, Mr. Pike took a few tentative steps off the cement sidewalk and stood irresolutely in the damp grass, trying to decide whether or not he could resist the luxury of his habitual mid-morning snooze, or risk the possibility of a rickety cold by succumbing to it.

To the right and left of him other gentlemen of the streets reclined in various positions.

Some few, like Mr. Pike, stood erect with doubtful expressions; others, the less fastidious, the less particular and apparently the less susceptible to rickety colds, were already stretched on their backs, indifferent to the dampness.

A third group had spread forth newspapers as a protective measure.

Toward this latter group Mr. Pike cast envious glances.

It was a pity, he thought, that a man didn't have 2 cents in his jeans to buy a newspaper.

There were so many uses to which one could put a newspaper.

Even one of the tabloid editions wouldn't go amiss.

Mr. Pike sighed heavily and wished for the hundredth time that the day might come when his finances would permit the purchase of a morning newspaper.

After a while he sighed again, and sat down.

The dampness, he told himself, wasn't as bad as he thought.

And the scudding clouds had nearly all dispersed.

Mr. Pike yawned, lay back on his elbows, yawned again, reclined full length, tipped his battered felt hat forward and slept.

It was past noon when Mr. Pike awoke.

The sun was radiating heat from a clear sky, and from its position Mr. Pike could tell that he had overslept.

Somewhat perturbed, he got hurriedly to his feet, paused only long enough to stretch and carefully brush from his tattered jacket the spears of grass that had gathered there, and moved with a slightly better than shuffling pace toward the nearest cement walk.

No one paid Mr. Pike a great deal of heed as he threaded his way along the crowded walks; but the indifference of fellow human beings had long since ceased to bother him.

In fact, to have been accosted, would, at the moment, have proved extremely annoying.

Mr. Pike crossed Tremont street and headed east.

Shortly he turned into a less traveled thoroughfare, later turned again and so presently came abreast of a building in front of which a line of dowdy looking males made halting progress toward the entrance.

Mr. Pike fell in at the foot of the line, and found various spots along the building's side a comfortable lounging place.

Eventually, Mr. Pike found himself inside the building, and was served a steaming bowl of soup and three crackers.

He found a place toward the end of a long table.

He ate with a certain amount of leisure, unburdened, relishing each mouthful.

His attitude was that of a man contemplating weighty problems while consuming luncheon.

And, indeed, Mr. Pike was contemplating a weighty problem.

He was perturbed, annoyed and extremely worried.

For, despite the brightness of that noonday sun, perceived by Mr. Pike on awaking 30 minutes before, he knew as the result of many previous scruples of that same sun that before the next night was ended it would again rain.

And if it rained, Mr. Pike's favorite grass plot would, on the morrow, undoubtedly be even damper than on this day.

Mr. Pike returned to the common via the same route, walking slowly, mentally laboring with his problem.

He found an empty seat on a bench and sat down, wholly ignoring the movement of an extremely well-dressed gentleman, who edged away from the proximity of Mr. Pike's dowdy figure.

For more than an hour Mr. Pike sat on the bench slowly turning over and over in his mind the matter of tomorrow morning's dampened grass plot.

The well-dressed gentleman, after ten minutes of waiting, had departed and in passing had cast a wholly repulsive glance toward the contemplative Mr. Pike.

But the glance went begging; for Mr. Pike had his own private opinion of men who could afford to sit on park benches in mid-day with never a problem to consider.

The afternoon waned and Mr. Pike exchanged his bench seat for another, one more fully exposed to the rays of the declining sun.

After a while he dozed, awoke toward five o'clock and immediately took up again the consideration of his immediate problem.

At 5:30 Mr. Pike stood up and snuggled idly toward Tremont street and the soup kitchen.

He arrived in time to gain fourth position in the line of waiting men.

The man ahead turned and spoke throatily about nothing more important than the weather, yet Mr. Pike fairly jumped at mention of the subject and looked so strangely toward the speaker that that worthy turned back without waiting for a reply.

At 6:45 Mr. Pike had returned to the common.

But now, instead of sitting down, he began a systematic patrol of the network of walks.

It was tiresome work, but Mr. Pike did not for a single instant waver.

His mind was set; his problem, to be solved, demanded action.

Providence must have guided Mr. Pike's footsteps, for during the hour when daylight merges into dusk and dusk into darkness, his ever searching eyes fell upon a dull gleam beneath one of the park benches.

Stooping, he picked up a silver coin, a 10-cent piece, that had evidently fallen from a bench-sitter's pocket.

Mr. Pike held the tiny bit of silver in his hand and looked at it, conscious of a warm glow of satisfaction, conscious, too, of a feeling that comes to a man who has labored and received his reward.

Pocketing the coin, Mr. Pike sighed heavily, contentedly, and slouched on to the nearest bench.

The rain did not cease till early morning.

At nine o'clock the sky was still overcast, the ground beneath still spongy as a result of the heavy precipitation.

Mr. Pike approached his favorite grass plot and unhesitatingly stepped from the concrete walk.

The hint of a smile played about his mouth as he felt the dampness through the thin soles of his shoes.

Heening what he estimated was a spot likely to receive the first rays of the soon-to-appear sun, Mr. Pike paused for a moment to stare triumphantly about him.

He saw others of his class standing erect, or squatting on bits of stone or reclining on the senny protection offered by a day-old newspaper.

For a moment Mr. Pike stood thus, warmly conscious of envious glances thrown in his direction.

Then dramatically he removed from beneath his tattered coat a great bulk of newspaper and began spreading one thickness after another atop the damp grass.

And as each thickness went down, the look of triumph and utter contentment became more pronounced on Mr. Pike's face.

For the day was Sunday and Mr. Pike had purchased with his find of the night before a Sunday edition, which provided enough thicknesses to withstand most any dampness.

## Red Light for Growth

Remarkable results concerning the effect of different colors on the growth of plants have been obtained at the Rose Research Institute at Calcutta, says the Montreal Herald.

An important feature is that the explanation suggested is independent of the characteristic action of light in building up the coloring matter of plants, and may, therefore, be applicable to other forms of life.

It has been found that red light, directly applied, causes plants to grow more rapidly, although blue light has a retarding influence.

It was also found that when white light was allowed to fall on a plant only at some distance from the growing area the rate of growth was increased.

## City of Roses

Montevideo, which is the preferred resort city of the people of Buenos Aires, is called the "City of Roses," its parks boasting more than 800 varieties of the flower.

## Fetes in Spain, Belgium

Fetes in Spain are continuous throughout the year and combine religious observance with gaiety. Those in Belgium and the Netherlands invoke the blessing of the sea, set the carillon bells to ringing and call for the march of holy processions and the observance of days of historic interest.

Before  
you order fuel  
learn about low-cost

GAS  
HEAT

Investigate our Special Summer offer—install  
gas heat now and pay nothing until October

EVENTUALLY you'll have modern, automatic gas heat. When your neighbors tell you of the joy and comfort that gas heat brings into their homes you'll want it, too. Then why not have it now? There's no need of putting off the day when you'll have this twentieth-century convenience. Before you order fuel, get the full facts on gas heat.

Now at low rates, every home—even the most modest—can afford gas heat. Rates for gas

are now one-half of what they were in the 1930-31 heating season. And our special offer lets you try before you buy. We'll install it at our expense and you pay only \$3 a month rental during the first year for the equipment in the average home. This charge will be included in the bill for the gas you use. Use it for one month, two months or a year.

There are many reasons why you want gas heat. It ends days

and nights of coal shoveling... of hauling ashes... chopping kindling... the anxiety of watching fires, setting dampers. Walls and drapes stay clean, free from dust, grime and soot. There is no more tracked-up dirt from the basement.

Don't delay—investigate TODAY

With gas heat a single match is your kindling pile for the year. You fire your furnace from your easy chair.

Now in effect  
**LOW COST**  
for Heating Homes  
with  
**GAS**

You Invest Nothing!

Without ONE CENT of investment by you, we install the most modern burner in your furnace or boiler. If you are satisfied, it stays. If not—and you are the sole judge—out it comes and your former heating system is re-installed—AT OUR EXPENSE. We make this offer because of our confidence in the perfection of gas heat.

## COUNTRY CLUB AUXILIARY MEETS WITH MRS. GALLAUER

The Woman's Auxiliary of the Channel Lake Country Club held the first meeting of the season on Tuesday afternoon, at the home of Mrs. Carl Gallauer, on Channel Lake, the assisting hostesses being Mrs. Harry Arms and Mrs. Charles W. Laflin. Thirty ladies partook of a delightful luncheon, which was followed by the game of contract bridge. The high honors went to Mrs. Ruth Ward, of Channel Lake and Mrs. Emma Simons, of Lake Marie. The guest prize was won by Mrs. Lurabelle Richardson of Mahlis, also of Channel Lake.

Others present included Mesdames Smart, Brook, Warriner, Mauermann, Genedinger, Smyth, and sister Mrs. O'Brien, from Lake Marie, Mrs. Paulson, Mrs. Bayrd, Mrs. Dorrance, Mrs. Bledsoe, and Mrs. Borg, from Lake Catherine, and Mesdames Polter, Gifford, Tacklesley, Bonsema, Volk, Klerman, and Cooper, from Channel Lake. Another guest was Mrs. A. McKay-Smith, of Great Neck, Long Island, N. Y., who is spending a few weeks with Mrs. Laflin on Channel Lake.

The next meeting will be held at Mrs. Wm. Cooper's on Channel Lake, Tuesday, July 23rd.

## AUXILIARY ENTERTAINS AT BRIDGE-LUNCHEON

Mrs. B. R. Burke, assisted by Mrs. Paul Chase and Mrs. Ruth Ward, gave a bridge-luncheon party at the home of Mrs. Burke at Channel Lake, Monday at 1 o'clock, for the benefit of the American Legion Auxiliary. Nine tables were filled with players for the afternoon. Several prizes were given. Those winning the highest scores were: Mrs. Emma Powies, bridge, and Mrs. Fred Lynch of Channel Lake in 500.

## MR. AND MRS. M. LIND CELEBRATE FORTIETH WEDDING ANNIVERSARY

The spacious summer home of Mr. and Mrs. Charles W. Anderson, of Chicago and Petite Lake, was formally opened this season with the celebration of the fortieth wedding anniversary of Mr. and Mrs. M. Lind, of Chicago, aunt and uncle of Mr. and Mrs. Anderson. Relatives from Chicago, Waukegan, Elkhorn, Wis., and Minneapolis, Minn., were present.

## DR. AND MRS. WRIGHT ENTERTAIN AUXILIARY

Dr. and Mrs. Eugene P. Wright entertained twelve members of the Board of Physicians Fellowship Club Auxiliary of Chicago, Tuesday, July 14th, at their home at Grass Lake. The day was spent socially as well as discussing business matters of the club for the coming year.

## CHANNEL LAKE P. T. A. TO SPONSOR CARD PARTY

There will be a card party given at the Channel Lake school house, for the benefit of the Channel Lake Parent Teachers Association, Tuesday, July 22, at 8 o'clock p. m. Bridge, luncheon and 500 will be played. Tickets, adults 25 cents, children 10 cents. Lunch and prizes.

## ST. IGNATIUS CHURCH TO SPONSOR CARD PARTY

A public card party will be given for the benefit of St. Ignatius church Wednesday, July 23rd, at 2 o'clock at Rockwell College, at the end of Grapevine lane, Channel Lake Bluff Subdivision. Price 25 cents. Everybody welcome.

## CHRISTIAN SCIENCE CHURCHES

"Sacrament" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, July 14.

The Golden Text was, "Whether therefore ye eat, or drink, or whatsoever ye do, do all to the glory of God" (1 Cor. 10:31).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Moreover, brethren, I would not that ye should be ignorant, how that all our fathers were under the cloud, and all passed through the sea; And were all baptized unto Moses in the cloud and in the sea; And did all eat the same spiritual drink; And did all drink the same spiritual drink: for they drank of that spiritual Rock that followed them: and that Rock was Christ" (1 Cor. 10:1-4).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Our Master taught no mere theory, doctrine, or belief. It was the divine Principle of all truth being which he taught and practiced. His proof of religion and worship, but Christian Science, working out the harmony of Life and Love" (p. 26).

Mrs. Frank Cerny of Chicago spent a few days last week with her parents, Mr. and Mrs. James Babor.

Mrs. George Malek and children of Berwyn are guests of Mrs. Malek's parents, Mr. and Mrs. James Babor, this week.

Mrs. Stoner W. Yamitis, and son, Charles, of Cincinnati, Ohio, are spending the summer with Mrs. Yamitis' parents, Mr. and Mrs. Charles Anderson at Petite Lake.

Mrs. Charles Anderson entertained Mrs. Eugene P. Wright and daughter, Ione, of Chicago and Grass Lake, and Mrs. Redding and daughter, Catherine, of Chicago at a luncheon on Friday at her home at Petite Lake.

Mr. and Mrs. H. P. Carey of Dallas, Texas, are spending a month visiting in Antioch, the guests of Mrs. Carey's parents, Mr. and Mrs. H. A. Radtke and her sister and brother-in-law, Mr. and Mrs. R. P. Cavanaugh, of Kenosha.

W. F. Ziegler and Mr. and Mrs. Russell Bramfield left Sunday morning for Sylvan Lake, Rome City, Ind., where they will be the guests of Mr. Ziegler's sister and brother-in-law, Mr. and Mrs. H. L. Merry.

Mr. and Mrs. Charles Poland of Calumet City spent the week-end with their uncle and aunt, Mr. and Mrs. H. B. Gaston.

Miss Sophia Peterson of Chicago is a house guest of the Charles W. Anderson family at Petite Lake.

Mr. and Mrs. H. E. Shepard spent the week-end in Woodstock, the guests of Mr. Shepard's parents, Mr. and Mrs. W. E. Shepard.

Mr. and Mrs. Newman Sheehan of Highland Park spent Wednesday with Mrs. H. A. Radtke.

Mrs. H. P. Cavanaugh of Kenosha and Mrs. H. P. Carey of Dallas, Texas, spent Thursday afternoon with Mrs. H. A. Radtke.

Week-end guests for the past month, of Mr. and Mrs. Charles W. Anderson, at their home at Petite Lake, were Mr. and Mrs. Roy Hardlake, Mr. and Mrs. Aronson, Eric Sward and Miss Sarah Anderson of Chicago, Mr. and Mrs. J. Arthur Hoffmann and sons, Jack and Bobby, and Miss Frances Hillman of Beverly Hills.

Mr. and Mrs. M. R. Cole of Richmond were business callers in Antioch Wednesday.

Gigantic Biblical dramatization, entitled, "First Commandment," will be presented August 27 and 28 at Antioch high school athletic field. It is of educational value and will be a community event.

Mrs. Maude Hurtgen of Kenosha spent the week-end in Antioch the guest of her sister, Miss Mabel Brogan and brothers, Claude and Richard Brogan.

Julius O. Randall, a registered pharmacist of Maywood, Ill., has accepted a position with King's drug store. Hugh Galbraith, former employe at King's for several years, has employment in a retail drug store at Harvey, Illinois.

Mrs. Charles W. Laflin and her guest, Mrs. A. McKay-Smith, are leaving Monday of next week with the family of the Rev. Alexander McKeechle of Great Neck, Long Island, who have a summer home about 100 miles north of St. Paul, Minn.

Mrs. Eva Baristable entertained her mother, Mrs. Belle Shugart and her brother, Frank Shugart and Mrs. Susan Tice of Rockford, Sunday.

There will be a luncheon and card party given at St. Peter's, Wednesday, July 31st, at 12:30 o'clock. Tickets 50 cents. Don't forget to come.

Mrs. Arthur Hale of Pleasant Prairie and Mrs. Ray Corrin and daughter, Harriet, of Kalamazoo, Mich., called at the home of Mrs. Ellen Van Duzer Monday.

Mrs. Adolf Pesat and sons, Harry and Adolf, Jr., and Mrs. S. Rymer left Sunday for a few weeks' visit with Mrs. Pesat's mother, Mrs. S. Loughlin, at Sioux Falls, South Dakota.

Mr. and Mrs. Bob Mann are entertaining Mrs. Mann's niece, Miss Norma Miller and her mother, Mrs. Nousek of Chicago this week.

Miss Ella Hamm of Marengo is a guest of Mrs. Sarah Emmons this week.

Mr. and Mrs. William Gray and daughter, Mrs. Eva Kaye returned home Friday night after a few days' visit with Mr. and Mrs. Herbert Pierce and Mr. and Mrs. Gerald Pierce of Oshkosh, Wisconsin.

Mrs. Lillian Williams has been quite ill at her home on North Main street since Sunday.

## Lights of New York

by L. L. STEVENSON

Sonny was the name given him at the shelter of the Society for the Prevention of Cruelty to Animals. That was just as good a name as any since, even after a week, he paid no attention to whatever he was called. As a matter of fact, he paid no attention to food, his surroundings, those who tried to be friends with him or anything else. Seemingly his whole world had come to an end when he had been placed in the society's ambulance. Before that, he had been a different dog indeed. Then he had been a militant animal with hackles standing, fire in his eyes and long white fangs ready for use. Not that the world was his enemy. But he was guarding someone he loved deeply and when a big dog, mostly police, is guarding someone he loves, even policemen and firemen do not interfere. Instead, they summon an expert.

The call came to the society's hospital at about 4 a. m. William Ryan, an ambulance driver for the last 23 years, rubbed the sleep from his eyes, hurried outside, started the motor and sent the ambulance speeding toward East Eleventh street. The call had stated that a woman was lying in the driveway of an engine house in such a manner that the apparatus could not be moved without running over her and she could not be removed because a police dog refused to allow anyone to come near her. Since humans are frequent down there, Ryan stepped on a few minutes, was at his destination.

One look at the dog told the experienced Ryan that it would be merely a waste of time to attempt to win its confidence or to catch it off its guard. So he got out his loop and soon had the dog in the ambulance. Then the police and firemen attempted to revive the woman. Their efforts were fruitless and Ryan went back to the ambulance. All the light had gone out of the dog that was to become Sonny. He was whimpering in a corner as if in some way the fact had been communicated to him that the one he had been guarding so valiantly was dead.

So Sonny went to the shelter and the one he loved went to the morgue. Her purse and her clothing yielding no clues, she was listed as "unidentified" and a description was sent out. Days passed and none who went by the ambulance recognized her. Meanwhile, though given every attention, Sonny continued to droop. Then something happened. Two young girls came to the shelter. They had been there before and were looked on merely as visitors. But when Sonny saw them, he went wild. His demonstrations attracted the attention of the girls and they broke into tears.

Eventually, the story was learned. "The older girl is a hat check girl in a Yankers restaurant. Her duties keep her out late at night so her mother always met her at the subway station and took her home. Accompanied by the dog, the mother felt entirely safe. The daughter, surprised at not finding her mother in the usual place, went on home without knowing that sudden death had prevented the mother from keeping the appointment.

## SEES INFLATION

## A SLOW PROCESS

A Real Danger for the Future, Col. Ayres Tells Banking Groups.

NEW BRUNSWICK, N. J.—Present prospects do not indicate that inflation is severe enough to cause further dollar devaluation will come soon, in this country, but as an ultimate development it seems to be a very real danger, Leonard P. Ayres, Vice President Cleveland Trust Company, said here tonight in an address before the Graduate School of Banking. He believed this statement to be true "unless the government enters frankly upon a policy of issuing fiat money with which to meet its expenses." At present that does not seem to be in sight, he said.

The Graduate School is operated jointly by the American Institute of Banking Section of the American Bankers Association and Rutgers University to offer advanced studies for bank officers.

"We have so enormously increased the capacity of our banking system for credit expansion that it is difficult to see how we could have a vigorous business revival without having it develop into a credit inflation," Colonel Ayres declared.

Inflation is a slow process. It is a slow process, he said, pointing out that in Germany, France, Belgium and Italy it took about five years to develop from the time when the governments entered upon policies of financing large peace-time deficits by bank credit up to the time when the public generally began to spend money rapidly because of fear that it would still further depreciate its purchasing power.

"If we are to go through such a period here it would seem likely that it might last rather longer than the corresponding periods abroad," he said. "Its beginning would date from the spring of 1933 when we left the old gold basis for our money and entered upon the policy of financing large governmental deficits by the sale of Federal securities mainly to banks rather than to private investors."

"The method that we are following is the one that proved disastrous in Europe for in all those countries including Germany, the increasing issues of money that caused the inflations were not mere printing press issues of fiat currency, but were secured by government bonds and notes discounted at the banks. Nevertheless, the process is inherently a slow one."

Among the clearest lessons taught by the European experience, Colonel Ayres asserted, is that there are "no good hedges against inflation." He added:

Did Not Lighten Debt Burdens  
"One of the strange facts about these inflations is that while they destroyed the values of most existing debts, they did not succeed in lightening the debt burdens of either the people as a whole, or of the corporations."

"Inflation destroys the value of bonds and mortgages and so confiscates the property of these holders of obligations and hands it over to the share-holders and the equity owners. However, it introduces so many new economic difficulties that these share and equity holders are at once forced to incur new indebtedness so that when stabilization comes the problems of debt are about as troublesome as they were before, or even more so."

The five requisites of inflation were listed by Colonel Ayres as first, a period of sustained active business; second, a rising stock market; third, real credit expansion; fourth, greater outflow of gold; and fifth, a currency entirely free from gold; and fifth, continued large budget deficits in government operation.

## A PROPHECY

Significant economic developments to be expected in the next decade are listed by a prominent business writer as follows: (1) Higher standard of living. (2) Continued advances in technical processes of production. (3) Factory built houses, better and cheaper than hand made houses. (4) Somewhat cheaper money. (5) Faster travel. (6) News printed by radio. (7) Mechanical cotton picker, revolutionizing the South. (8) Cheaper electric power. (9) Better distribution of goods; more chain stores. (10) Another depression five or six years hence, preceded by an inflationary boom.

## TWO QUESTIONS ANSWERED

Why is it that one farmer raises 100 bushels of corn to the acre, and the other one, on the other side of the fence, raises 25 bushels to the acre? Why is it that one farmer produces 100 pounds of pork on five bushels of corn, and another uses 25 bushels? Not until power machinery, scientific principles of soil fertilization and restoration, rotation of crops, diversification of crops and economical feeding are applied to the farm, will the farmers' problem be solved, says a farm authority.

## BANKING READY

NEW YORK.—There is abundant evidence that banks are in an unusual ly favorable position to finance a period of industrial growth, says the June issue of "Banking" published by the American Bankers Association.

An official survey on June 10 indicated that the Government of the United States, through its loans, was the potential owner of more than half of the existing world stocks of American cotton.

## Card of Thanks.

We wish to thank all our friends and neighbors for all the floral offerings and other donations and offerings at the hour of our deepest sorrow for the loss of a loving husband, father, son and brother.

Mrs. Victoria Longly and Children,  
Mr. and Mrs. J. Longly,  
All the Brothers and Sisters.

## Sweeter Sugar

Levulose, in which the Jerusalem artichoke is especially rich, is a sugar that is about half again as sweet as cane sugar. But it is hard to prepare industrially, which is the reason it cannot be bought in every grocery.

## Berengaria's Church

The little church wherein Berengaria was married to King Richard at Limosol in the island of Crete, nearly eight centuries ago, still stands and continues in use.

Mr. and Mrs. H. A. Radtke entertained Mr. and Mrs. R. P. Cavanaugh of Kenosha Sunday.

## TELLS HOW BANKS AIDED PROGRESS

Economist Describes the Ways Banking Institutions Have Contributed to Development of United States

OMAHA, Neb.—Privately owned banking, despite its faults, has served America well, William A. Irwin, Professor of Economics, Washburn College, Topeka, Kan., declared in a recent address here on "Banking in a Changing World."

"Under the leadership of individuals banking has helped to bring this country to a foremost place in economic development among the nations of the world," he said. "The small community has been developed by the individual bank. The frontiers of America have been pushed forward by the help and counsel of the individual banker. The shocks of wars and depressions in a century and a half have been withstood with the assistance of the individual banker."

### Change May Be Necessary

"It may be that we have reached a life in the affairs of America when new methods are needed. It may be that we have come to a point where the individual should be submerged for 'the greatest good of the greatest number.'"

"It may even be that complete centralization of the banking system has become an economic necessity in our complicated social life. But the banker ought to be satisfied that these things are so before he should give up his fight for the system we have known. We came to greatness under that kind of banking; we should not give it up without unmistakable proof of the absolute necessity of such a change."

### The American Pattern

Professor Irwin said that the proposal which has been advanced for coordinating banking operations in the national interest under a "Supreme Court" for banking is typically American and ought to have the most serious consideration of those elements which are clamoring for political control, which is typically un-American. It is not wise, he said, to oppose changes as such, but that bankers should "see to it that change, if and when it does come, shall preserve all that is good in the past and stick as closely as possible to the American pattern of things."

Banking is properly a conservative profession, he pointed out, and should cling to practices and principles of banking that are, and always have been, fundamentally sound. "It is to its credit that so large a group of its members never faltered, even in boom times, in their allegiance to those sound principles," he declared. "We probably owe our salvation from chaos to that fact."

## BANKS AND COLLEGE LAUNCH NEW SCHOOL

Aims to Offer Studies in Advanced Banking Subjects to Bank Executives—Public Duties of Banks Stressed

NEW BRUNSWICK, N. J.—The Graduate School of Banking, an unprecedented educational project, operated under the joint auspices of the American Institute of Banking Section of the American Bankers Association and Rutgers University, with 220 enrolled students from 35 states and the District of Columbia, inaugurated here in June its first resident session. The states represented and the number of registrants from each were as follows: Alabama, 2; Arkansas, 2; California, 2; Connecticut, 9; Delaware, 2; District of Columbia, 8; Florida, 2; Georgia, 3; Idaho, 1; Illinois, 4; Indiana, 2; Iowa, 1; Kansas, 1; Kentucky, 2; Louisiana, 3; Maryland, 1; Massachusetts, 5; Michigan, 5; Minnesota, 1; Missouri, 6; Nebraska, 1; New Jersey, 31; New York, 50; North Carolina, 2; North Dakota, 1; Ohio, 7; Oklahoma, 1; Oregon, 2; Pennsylvania, 32; Rhode Island, 1; Texas, 5; Virginia, 6; Washington, 1; West Virginia, 1; Wisconsin, 4; Wyoming, 1.

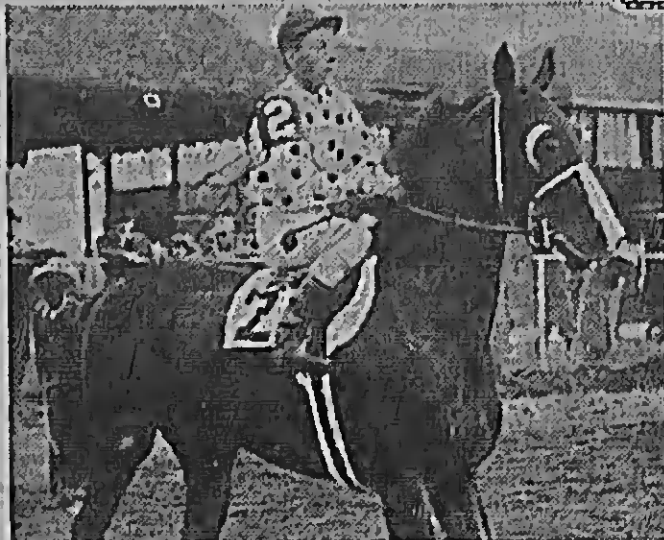

The annual resident sessions of the graduate school will be supplemented between periods by continued extension work for the students at their homes. The purpose of the school is described as being to offer in a three year course a comprehensive approach to an advanced study of the various administrative problems in banking and trust institutions. The teaching procedure is a combination of the case system and the lecture discussion method.

**The Curriculum**  
The curriculum embraces banking administrative problems and policies, bank investment problems, legal and managerial aspects of trust business, legal phases of bank administration and economic problems in the field of money and credit. The public relations and responsibilities of banks and methods for meeting these obligations are emphasized in the course.

It is planned to set up similar schools in cooperation with other universities in various parts of the country. The school will add 200 registrants each year for two years until 600 are enrolled.

The trustees of the Educational Foundation of the American Bankers Association have set aside funds from the foundation to grant 100 loan school stipends of \$150 each to qualified applicants for attendance at the school.

## THREE-YEAR-OLD CHAMPIONSHIP

OMAHA

BLACK HELEN

WILLIAM WOODWARD'S Omaha, outstanding among the three-year-old colts by virtue of victories in the Kentucky Derby, Preakness, Belmont Stakes and Dwyer Stakes, and Col. E. R. Bradley's Black Helen, queen of the fillies with triumphs in the American Derby, Coaching Club American Oaks and

Florida Derby, are the principals in the seventh running of the \$40,000 Classic Stakes at Arlington Park Saturday, July 20. A victory for either will give Omaha or Black Helen undisputed possession of the three-year-old title. They will be opposed by about ten others over the testing route of one mile and a quarter.

## ANTIOCH STARS BOW TO CLAC, 8 TO 1

Lakers Invade Spring Grove with Locals Playing Wilmet on Same Bill

The foud between the Antioch All-Stars and the Channel Lake A. C. was resumed Tuesday with the Lakers walking off with an 8 to 1 decision at the Grade school diamond. The lads from the west side solved J. Waldweller's hurling assortment in the sixth by appling the plato with a cluster of 4 runs, and came back for a return engagement the following inning with another handful of 4 runs. Ray Sorenson gave up the lone Antioch counter in the fourth frame when Bishop jockeyed over the home base.

Ed Sorenson, Walsh and Willett were the heavy hitters for the winners, and showered hits to lead the contest in the big-run innings.

Tonight (July 18) the CLAC outfit journeyed to Spring Grove where they stage a session with the Spring Grove All-Stars under the electric lights at 8 o'clock. Willett is scheduled to meet Antioch on the same bill, while the preliminary game will be played by teams of girls, the femmes from Melterry probably demonstrating why they're the class of that county as one of the teams. Box scores: Channel Lake A. C.—9

**CLAC**—000 004 40x—8 17 0  
**Antioch Stars**—000 100 00—1 7 2

**Tea Leaf Fortune Telling**  
If two tea stalks appear on the surface of a cup of tea they are to be placed on the back of the left hand and struck with the back of the right; if they remain unmoved on the left, or adhere to the right, then the one loved will remain true; but if one adheres and the other not she will be false.

**Danger to Animals From Weeds**  
Certain poisonous plants do not always carry the same degree of toxicity, or deadliness. Normally, they may be safe for animals to eat, but under certain growth and climatic conditions they may become extremely toxic. Other plants may always have some poisonous properties present.

**"Cocoanut" Spanish Name**  
The coconut gets its name from the Spanish word coco, which means the face of a monkey. The word is applied because the three eyes on the coconut are so placed that a resemblance can be noted between it and a monkey.

**Fish Can Taste**  
The taste in fishes is seated in the mucous membrane of the mouth and offers a fair sense of discrimination in the selection of food. The membrane is sensitive well out to the edge of the mouth and not confined to the tongue and mouth cavity.

**Quakes Destroyed 600 Cities**  
Within the Christian era, records reveal, earthquakes have destroyed 600 cities and wiped out more than 1,500,000 lives.

## Detective, Then Cop; Now He Is a Hobo

Sandusky, Ohio.—A man who gave his name as James Murphy and who said he was a former member of the Cincinnati police force was among a number of wanderers rounded up by police in the "jangles" hobo hangout in a Sandusky suburb.

"Quite a flop, from policeman to tramp, wasn't it?" Inspector Schibley, chief of the department detective bureau, asked Murphy.

"Oh, no," Murphy replied coolly. "You see, I was a detective before I went on the police force."

### Cause of Winds

Wind is air in motion. If all parts of the earth were equally heated by the sun's rays, the atmosphere would be equally dense and in a state of perpetual calm. It happens, however, that the sun heats certain areas of the atmosphere more than it does others. The heated portions of the air expand and blow out over the cooler areas. The heavy air of the cool areas is no longer held back by the lighter air of the warm areas and rushes in to restore the equilibrium. Thus winds are formed, says the Washington Star. The direction of winds is considerably deflected by the rotation of the earth on its axis.

**Etching Gives Virgin Isle Name**  
An almost perfect etching of the Madonna with the Christ Child in her arms on one of the cliffs of an island off the southern coast of New Scotland has caused the place to be called "Virgin's Island." No human being has ever set foot on its rock-bound shores. Frequent lapping of waves against the steep cliffs, storms and frost have created the Madonna etching.

**Tea From China**  
The use of tea was first discovered by the Chinese in the third dynasty, at the close of the Han dynasty, and history is full of quaint legends regarding its inception. Though tea growing has been transplanted to almost every Asiatic country, the Chinese still claim that there is something in the climate and soil of that country that produces tea with special fragrance and flavor.

**Many Visit Logan Elm**  
It is estimated that 10,000 persons annually visit Logan Elm under which Logan, chief of the Mingos, delivered his famous peace speech in 1774. This majestic elm stands below Circleville, Ohio.

**Just a Habit**  
"Elegance can't always be depended on for lastin' effects," said Uncle Eben. "You can't keep folks from backslidin' after a p'ltical campaign any more dan you kin after a camp meetin'."

## Thackeray's Classic "Becky Sharp" Opens at Kenosha Theatre

Coming as an epochal event in the history of film entertainment, Pioneer Pictures' much heralded full color feature, "Becky Sharp," starts a limited engagement at the Kenosha Theatre Saturday.

Miriam Hopkins, starring in the title role, rises to heights in her characterization of the lovely, vivacious, and successful coquette. She has invested her role with life and understanding, to make the beautiful, wayward, Becky a character to linger long in the memory.

Alan Mowbray, as Rawdon Crawley; Frances Dee, as Amelia Sedley; and Sir Cedric Hardwicke, as the Marquis of Stuyvesant, are splendid in their roles. Other outstanding performances are given by Nigel Bruce, G. P. Huntley, Jr., Billie Burke, Allison Skipworth, Colin Tapley and William Faversham.

"Becky Sharp," as most lovers of literature know, is the story of a willful and clever beauty, who uses her loveliness to advance her social position and make a sweeping conquest of the hearts of men. True to Thackeray's story, the picture deals with the elite of the London society of the early nineteenth century.

## LAKE VILLA

Mr. and Mrs. Charles Kelly drove to Racine, Wis., on Friday afternoon and visited relatives there, then went by train to Menominee, Mich., where Lillian will remain for a three weeks' visit with her cousins there. Mr. Kelly returned home Friday, but Mrs. Kelly remained until Tuesday.

Mr. and Mrs. Fred Bolt and Mr. and Mrs. Charles Pantor of Chicago drove out and spent last Wednesday with Mrs. Pantor's sister, Mrs. E. Thayer. This was the first visit the sisters had had in more than a year.

Mr. and Mrs. James Cragg of Ingleside called on Mr. and Mrs. E. Thayer on Friday.

Miss Florence Seeger returned last week from a ten day visit with her sister, Mrs. Iva Bailey, in Cleveland, Ohio.

Mr. and Mrs. Howard Lee of Westfield, New Jersey, and Mrs. Nielson of Chicago called on friends here last Friday.

Mrs. McManus of Bensenville was a guest of Mrs. J. A. Pederson from Saturday until Sunday night. Her son, Marty, is at the Pederson home and working on the Cedar Crest golf course.

Dr. and Mrs. M. H. Gindich are receiving congratulations on the birth of a daughter on Monday at the Victory Memorial hospital.

Robert Hodgkins of Chicago is spending the greater part of his vacation with his grandparents, Mr. and Mrs. James Leonard.

H. H. Perry was home with his family over Sunday and returned to his duties at Elgin on Monday morning.

Mrs. J. A. Pederson was hostess for her bridge club at a luncheon at her home on last Thursday afternoon, and Mrs. Frank Wood, Mrs. Fred Hamlin and Mrs. Gene Sheehan, Jr., were winners.

Mrs. Homer Fawcett, who was injured by a fall from the motorcycle on which she and her husband were riding last Monday, returned from the hospital after a few days' stay there, and is recovering nicely.

The Ladies' Aid Society held a home bakery sale at the Peterson grocery and market last Saturday morning and will have another one there very soon. If you care to place an order, call any member of the Society and they will do their very best to fill the order. The ladies have set Friday and Saturday, August 9 and 10, for the annual summer sale when a number of interesting, useful and ornamental articles will be on sale. Particulars will be announced later.

The Green family who have been living in the Witt cottage, have moved to Leon Lake.

Mr. and Mrs. Clinton Walker of Belmont, Massachusetts, came last week to spend a few days of their honeymoon with Mrs. Walker's brother, Harold Durling. They were entertained at the Reinebach home during their stay and left for the East on Monday morning.

The fire department was called out Monday afternoon to extinguish a fire in the wooden fence of the E. J. Lehmann Estate, caused by a brush fire near by, and was extinguished before much damage was done.

The Ladies' Aid Society will meet on Wednesday afternoon, July 24, with Mrs. Fred Fink at her home on Oak Knoll Drive, and Mrs. Swanson will assist.

The Royal Neighbors enjoyed a picnic in the park on Tuesday afternoon. They had a dinner together, had games, a grab bag and swim in the lake.

Mr. and Mrs. Frank Wood left early this week on an auto trip to points in the great southwest, including California.

## Fiji Islanders Know Grief

Natives of the Fiji Islands, despite their savagery and low regard for human life, are known to die of grief, writes Anne Chadwell, New York City, in Callier's Weekly. There are records of many cases in which both men and women, upon being permanently separated from their sweethearts, have developed what they call "dangai," which is nothing but love-sickness, and physically decline to the point of death.

## Softening Water

In regions where the water is hard, a water softening storage tank is useful. The mechanical transformation from hard water to soft water is primarily accomplished by the employment of a chemical which completely removes all caustic, alkaline and foreign matter from the water supply.

## SCOTT'S SCRAPBOOK

## Yesterdays

News of By-gone Years in Western Lake County

## Forty Years Ago

Postmaster Tweed of Fox Lake, was in town Monday. Edwin Richards returned home Monday evening, after several days' visit with friends in Chicago.

Miss Maude Lee who has been the guest of Mrs. Maude Simons, left for her home in Chicago Monday.

Since our last issue, we note: C. H. Barber, A. F. Burke, A. F. Herman, A. H. Storms, Max Huber, J. J. Burke, wife and sons.

A happy crowd from Trieger's Lotus Summer Resort, on a hay rack, armed with a drum, cymbals, month organ, horns and good lungs, made the welkin ring in Antioch Monday evening.

W. C. T. U. Organized. The Women's Christian Temperance Union organized a branch in Antioch on Wednesday last, at the Christian church. Mrs. Dorr of Waukegan, Mrs. H. Shepard of Grange, and Mrs. Viola Burge of Grayslake, were present and assisted in the organization. The following officers were elected for the balance of the term: President, Mrs. J. E. Karr; vice presidents, Miss Lillie Ames and Mrs. T. J. Hollman; Miss May Westlake, corresponding secretary; secretary, Miss Anna Cannon; recording secretary, Mrs. Druehlla Ferris; treasurer, Mrs. J. C. James, Jr. The next meeting will be held today (Thursday) at 3 p. m. at the Y. M. C. A. rooms. All ladies interested are cordially invited to be present.

## Thirty Years Ago

Fred Shottliff of Silver Lake was calling on Antioch friends Wednesday.

J. C. James transacted business in Chicago Wednesday.

The army work has appeared in Lake county fields and is said to be playing havoc with the hay, oats and corn crops, particularly in the southwestern part of the county. On the county poor farm the crops will be reduced from 60 bushels an acre to only 10 bushels. So Superintendent Appleby thinks.

With little buckets of green paint, rural free delivery carriers soon will be giving the boxes along their routes a new coat of paint. The postal authorities have not decided how much

the carriers shall be allowed for each box painted, but the department will furnish the paint and the brushes. Should any carrier decline to earn the extra money some one else will be employed.

Mrs. L. E. Wright of Waukegan was the guest of Miss Gertrude Smart over Sunday.

## Fifteen Years Ago

Mrs. George Kuhaupt is spending the week in Milwaukee.

The Antioch Milk producers association will hold a meeting at the village hall on Saturday evening, July 24th, at 7:30 o'clock. All members are requested to be present.

Mr. and Mrs. Homer Stevens, Mr. and Mrs. Fred Wright and Mrs. Pell-fant of Waukegan spent Saturday at the R. D. Emmons home.

Joe Horton, Jr., Floyd and Louie spent Sunday in town and attended the ball game. Floyd is still in the hospital at Ft. Sheridan. The wound he received at Argonne Woods, still bothers him. He is studying to fit himself for clerical work in a bank.

## Ten Years Ago

Howard Mastno is spending the week in Chicago with relatives and while there expects to take in "fing-ling Bros. circus."

Ralph James and lady friend from Chicago were guests of the former's parents, Mr. and Mrs. J. C. James, Sunday.

Mr. and Mrs. Fred Palmer of Evanston and Mr. and Mrs. Harry Palmer of Chicago spent the week-end with their parents, Mr. and Mrs. Walter Palmer.

Mr. and Mrs. Frank Dibble motored to Kenosha Saturday. James Horan is entertaining a friend, Mr. Anderson of Denver, Colo.

## Being Proficient, Efficient

Proficient and efficient are almost interchangeable, but not quite. Proficiency denotes skill, as does efficiency. But the latter introduces an element of mental capacity not connoted by the former. To illustrate: Two workmen may be equally proficient, equally facile with their tools. They are given identical jobs. One arranges his tools orderly, so that there will be no lost time in the performance of the job; the other mislays his tools and loses much time in finding them. The first is efficient; the second is not. Similarly, a woman may be a proficient, a capable housekeeper; but not nearly as efficient as she would be with modern mechanical aids.—Literary Digest.

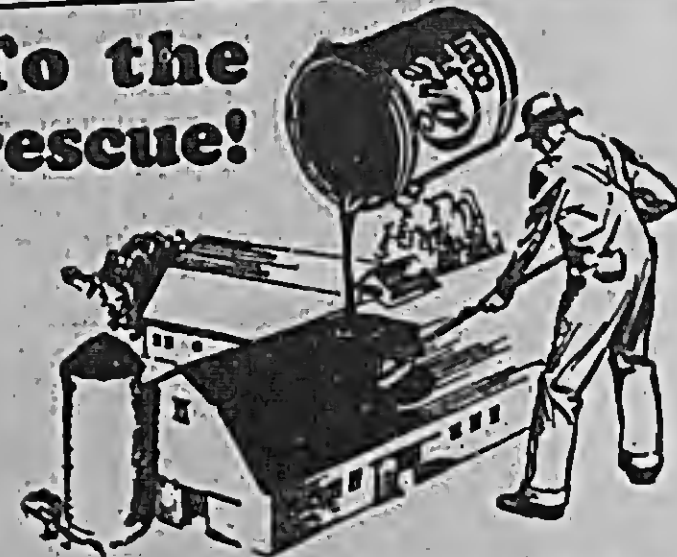

**Flowers as Traps**  
There are flowers that close immediately bees and other insects lodge inside them, and in the tropics there are larger specimens which ensnare small birds and mice. Scientists say that they extract the blood from small animals and birds and eject the carcasses. One, a Japanese flower, lures mice into its mouth and draws them in fluid. Another kills dogs and even goats with its poisonous fumes.—The Mills Magazine.

**Alligator Teeth Profitable**  
Alligator teeth have been found in Queensland, Australia, to be a form of ivory more profitable to handle than the skins because of the difficulties of transport to the towns.

**Fractional Currency**  
Fractional currency was found generally unsatisfactory. The circulation was maintained only at great expense to the government. It was replaced by coin at the earliest possible moment. The first issue of fractional money was made on August 1, 1862; the last and fifth issue was made from February 20, 1874, to February 15, 1875.

**Petroleum Is Greenish-Black**  
Petroleum is a fairly thick, greenish-black liquid. It is viscous, meaning that it clings to anything it comes in contact with. And the thicker it is, the more viscous or sticky, which means that the oil's flowing ability is decreased.

To the rescue!

PLAY fair with that roof of yours. Re-new the life that has been frozen and thawed and sunburned out, by giving it a coat of Carey Asbestos Fibre Coating. So easy to apply—simply spread it on with a brush.

and Attend the Centennial Historical Pageant in the Evening

# WOMEN'S PAGE

## Summer Beach Suppers

For those summer beach suppers try:

Steak Cubes  
(Grilled on long forks, in corn poppers, or on long green sticks, over the beach fire.)  
Holland style mustard  
Ash baked potatoes  
Toasted, pulled bread—butter.  
Cabbage salad or fresh cucumber pickles  
Coconut frosted date cake  
Hot coffee or chocolate  
Chilled watermelon to cut later when story telling begins.

Grilled bacon and olives, baked in rolls, or  
Toasted cheese sandwiches  
Campfire grilled bacon  
Whole tomatoes, Olives.  
Lettuce sandwiches  
Graham cracker strawberry short-cake  
Hot coffee or chocolate or iced lemonade.  
Marshmallows to toast later or corn to pop and butter.

Hot steak sandwich  
Holland type mustard  
Roasted corn on the cob  
Potato and egg salad—pickles  
Froth peaches—cookies  
Coffee.

Hot Steak Sandwiches  
10 fresh buttered rolls  
2½ lbs. steak cut in strips  
Salt and pepper mixed in shaker  
1 teaspoon Worcestershire sauce  
10 slices onion  
10 sweet dill pickles  
10 slices tomatoes, if desired.  
The rolls may be wrapped in waxed paper to keep fresh until ready to use. Broil steak in a corn popper or on a long handled fork over the campfire.

## Graham-Nut Cake.

1 cup sugar  
½ cup shortening  
3 eggs, separated  
½ cup milk  
¾ teaspoon salt  
28 graham crackers, rolled finely  
1½ teaspoon baking powder  
1 teaspoon vanilla  
1 cup chopped Brazil nuts.  
Cream together the sugar and shortening until fluffy. Add the beaten egg yolks, the milk and salt, stirring vigorously. Mix together the baking powder, stirring this into the sugar-shortening mixture. Fold in the vanilla, nuts, and stiffly beaten egg whites and bake in layers.

## Dine on Damask

Just because there are only two of you, your evening meals need not be slap-dash affairs. Gastronomic pleasure is greatly increased by pleasant surroundings, and the settings of your table sets the tone of the occasion. Fine Irish linen damask cloths, for generations held to be the correct background for a formal dinner, can now be had in a smaller size for the luncheon or dinner for two. These cloths are replicas of the larger ones in quality; the famous damask reel and sheen are still there, but the designs are adapted to smaller tables.

## Breakfast is Important Meal.

An hour's practice or study in the morning is said by teachers to be worth two in the afternoon. This coupled to the fact that by far the greater amount of the world's work is done before noon should make the matter of breakfast preparation take on great importance.

The child expected to do the best possible work in school must begin his day with a nourishing, well-balanced breakfast.

## Homemade Cupboard.

A homemade cupboard is very cheaply and easily made out of a large wooden store box. Sides are taken out and wire screen fastened on sides and door with carpet tacks. The bottom, back and top are enclosed with boards, with one or two shelves inside. This affords fresh air to pass freely over fruit, meats and other foods; keeps them safe from rodents; and is fire proof.

## To Preserve Book Covers.

All children like books but it is indeed a problem to keep the backs of books clean where the children use them, whether they are the children's own books or books of the older folks that they enjoy looking through time and again. If the back or covers of the books are painted with shellac which is colorless, it will prevent finger marks from showing and what few do show may easily be wiped off with a damp cloth. The shellac alters in no way the color or finish of the back or cover. Do this with the books when the children first get them and the books remain neat as long as the book lasts.

## Cookery Hint

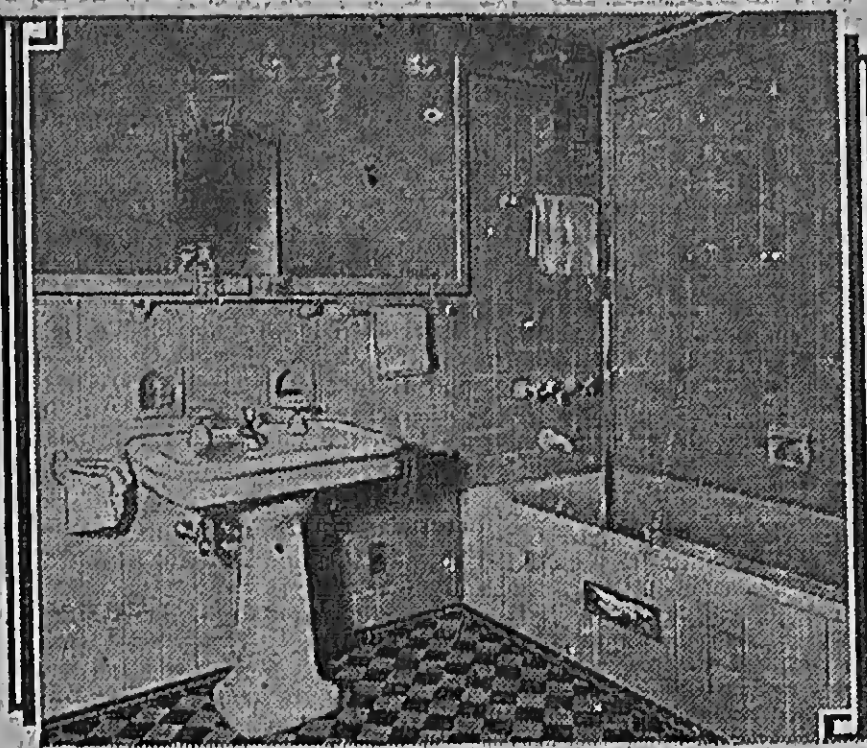

Peas, beans and lentils are a good source of muscle building material for the body. They also contain vitamin B, essential to health. Do not forget to include them in the weekly menu.

## Sweeter Than Cane Sugar

Levulose, derived from the Jerusalem artichoke, is approximately half as sweet as cane sugar. The difficulty of its preparation for industrial purposes precludes its being sold at grocery.

## Colorful Modern Tiles Assure

### Bathroom Beauty: '34 Costs Low

By Ruth Millard  
Consultant on Home Decoration

## "No home is better than its bathroom."

This is the first rule of the 1934 decorator, whether she plans a new house or remodels an old one. The varied hues and patterns of modern tiles give bathroom walls and floors distinctive beauty.

This new "beauty standard" guaranteed by the all-tile bathroom fits the economy budget, too. To-

day, installations of indestructible tiles, far from being a luxury, actually cost as little as some inferior substitutes. Financing this permanent beauty and sanitary protection for your bathrooms is easy; because home owners can now obtain loans for repair and remodeling work under auspices of the Federal Housing Administration.

Golden beige tile with a contrasting hand of tomato is a smart combination for bathroom walls of glazed tile. Ceramic mosaic patterns of unglazed tiles repeat these colors on the floor.

## My Favorite Recipes

Frances Lee Burton says:

EVER get a spell of "sweet tooth"? The firmer I am with calories and those extra ounces, the surer I can be that my "sweet tooth" will get me eventually. I'll try this simply delicious Coffee Carnival tapoca dessert the next time you're afflicted that way. Of course, your men-folks will adore it. The tapoca part of it is what makes it seem full of light, airy little bubbles.

Coffee Carnival  
1½ cups water; 1/3 cup quick-cooking tapoca; ½ cup sugar; ¼ teaspoon salt; 1/3 cup seedless raisins; 1 cup strong coffee; 1 teaspoon vanilla; 1 cup cream, whipped.

Place water in top of double boiler and bring to a boil over direct heat. Combine dry ingredients; add gradually to water, then add raisins, and bring to a brisk boil, stirring constantly. Place immediately over rapidly boiling water and cook 5 minutes, stirring occasionally. Cool—mixture clears and thickens as it cools. When slightly cool, add coffee and vanilla. Chill; fold in cream. Serve in sherbet glasses. Serves 4.

## SUMMER COAT

By CHERRIE NICHOLAS

A swagget coat worn over the summer frock is the last word in chic. Seems as if these swagget women coats were never so swagget as they are in the beautiful, soft textured fabrics of this year. These pastel coats in finger tip or three-quarter length are particularly in high fashion favor made of such fabrics as novelty rabbit wools which are as smooth to the touch as a kitten's ear. These include shadow-checked weaves of featherweight but firm textured, also surface constructions that delineate striped, diagonal or chevron designs. The fabric used for the coat pictured is a fine herringbone patterned rabbit woolen of super-light weight. It is in a lovely pastel yellow.

## Koran Helps Slavery

The greatest obstacle to the worldwide abolition of slavery is the Koran, bible of Mohammedanism, which tolerates slave-holding.

## JADED WARDROBE IS EASILY SPRUCED UP

There are endless possibilities of what one can do for a jaded wardrobe, and we are always on the lookout to discover things that can be added to an old dress to give it another season's wear. This year it is a change of jacket. Patterned ones contrast with the plainness of the gowns.

The idea of putting bright prints on top of dark dresses is a welcome change from the all-print ensemble that begins to pall after so many months of wearing. A short jacket makes a dinner dress out of one that would otherwise be extremely formal. When it is a wrap that is to be removed it is swagget to the hips or fitted to the floor. Anything goes in the way of a design for these new wraps, the smallest of pin dots to large floral patterns that are vibrant with life and exulting colorings. If the dress is white or a pastel, a print with a dark background is chosen for contrast.

## Fall Woolen Card Givies

### Two New Groups of Colors

The regular edition of the 1935 fall woolen card, portraying 45 colors in woolen fabric, has just been released to members of the association. It was announced by Margaret Hayden Burke, managing director. In addition to basic shades, the card contains two color groups designated as "Pasteliques" and "Touchdown and Ski Colors."

The first-named collection consists of hazy pastels and rich autumn tones especially suitable for dresses and children's wear. The "Touchdown and Ski Colors" have special merchandising appeal for the football and winter sports seasons.

### Choice of Belts

Pleasant, patent leather and colored leather belts are fashioned on wide designs—sometimes clasped snugly around the waist in a model which resembles that worn by Tyrolean mountaineers, or again crushed softly around the waistline like a fabric.

## HOSE ARE ADAPTED TO CUT-OUT SANDALS

Sandshoppers who have been buying all the newest models in these most revealing of accessories as summer footwear, have recently been more than a little troubled by the problem of proper stockings to wear with these high-fashion slippers. But the hosiery designers have kept in step, and the last arrivals ready for sandal collectors are the semi-sandal hose.

As you may surmise, the extra thickness is distributed over the area where it will do the most good, but so cleverly restrained that even the most cut-out of sandals show only the sheerest part of the hose. Heel reinforcement, as well as the toe sections and the long, very narrow panel under the foot, make them ideal numbers. Very sheer and not so sheer stockings in all the newest of summer tints, tones, and shades, with a flock of fancy new names, are now ready.

## Lanvin-Designed Draperies

### Fall in Swirled Festoons

Lanvin, this season, designs draperies which fall in portiere-like drapes of swirled festoons. From three great gold rings at the front decollete of the evening gown she swings drapery of rich black silk crepe falling to the floor.

She makes a smoke gray crepe afternoon frock with a skirt whose crisscrossed folds sweep from the waist to the hem and back again, and fashions a long-sleeved green crepe evening gown with skirt panels worked in green and gold patterns like an old mosaic.

### Bags Like Cameras

The new bags of pebbled calf look like camera cases, for they are often deeper than they are wide. They come in rectangular pouches slung from a strap on the wrist and are a distinct departure from the flat "envelope" so long in vogue.

### Doctor Music

The effect of music on the human organism has been known since ancient times. The king of Israel, Saul, tormented by melancholy, sent for David the shepherd boy to play on the harp.

### No Chances

"I should like to educate the taste of my neighbors," said H. H. Lin, the sage of Chinatown, "but customs are hard to conquer. Try as I might I could not hope to turn them from a Soume march to listen to the delicate tone differentiations in Chinese music."

### Oldest Court Records

At Eastville, Va., what are said to be the oldest continuous court records in the United States, dating from 1632, are found. It is claimed that these at Accomack, Va., are the second oldest.

### Originator of Nursing

Florence Nightingale, who was born in 1820 and who died in 1910 at the age of ninety, framed the philosophy of nursing principles, which are classic and still the foundation of nursing principles and ethics.

## New Safety Device Patterned After Eyes of Cats and Dogs

Left, above, Jonathan Cass Stimson, of Chicago, who discovered that the same principle that causes light to be reflected from the eyes of the Tabby in the upper right corner could be used effectively on the tail-lights of automobiles. Drawing shows how a ray of light is reflected.

NEW YORK—Eyes of cats and dogs reflecting the lights of on-rushing automobiles along our highways at night have resulted in the perfecting of important new automobile and highway safety devices exhibited at this year's New York Automobile Show.

For the first time all passenger cars and trucks exhibited at this year's show are equipped with tail lights made of reflex reflector glass, while most of the latest highway safety signs are similarly equipped for the benefit and safety of night drivers.

The new reflex reflector, like the eyes of night animals (providing) is so designed that it is self-illuminating and returns the illumination from approaching headlights to the eye of the approaching driver with little loss in efficiency.

By introducing this new feature

### "Ups" and "Downs" of Wheat

In the bygone days in Ohio, one could always tell on meeting the farmers returning from market whether wheat was "up" or "down." If wheat was "down" they approached slowly, their heads and shoulders drooping, their countenance cheerless, and to the question of the price would draw out to grumpy tone "T-e-e-f-y cents." If wheat was "up," they would be seen coming up the road at a brisk stride, heads and shoulders up, and their eyes bright. If you inquired of the price of wheat "today," they would answer with one cheerful word, "dollar."

### Colors for Walls

Colors for painted walls are classed by psychologists as "advancing" and "receding," warm and cool, depressing and cheerful. Yellow, red and orange, for example, are said to be "advancing" colors, and serve to make a room seem smaller. Blue, green, and gray are cool and receding and are therefore suited to small, sunny rooms.

Quakes Destroyed 800 Cities  
Within the Christian era, records reveal, earthquakes have destroyed 800 cities and wiped out more than 1,300,000 lives.

## Large Auction

### Here's a Savory Cold Plate For Picnic or Porch Supper

**THIS** is a well trained loaf! It can be packed whole in the picnic basket or be sliced into thin slices for sandwiches. If the picnic is called off because of rain, you can turn it into the piece de resistance of a porch supper with a garnish of little jellied borschtish molds. This meat loaf slices without breaking and this adds greatly to its appearance on the table. The secret of this good behavior is a small quantity of quick-cooking tapioca which binds the ingredients together. Also, the tapioca is so delicately neutral that it will not mask the flavor of the savory ingredients.

**Savory Meat Loaf**  
3 thin 3-inch slices salt pork, diced  
2 tablespoons minced onion  
2 pounds round beef, ground  
1/2 cup quick-cooking tapioca  
1/2 teaspoon salt  
1/4 teaspoon pepper  
2 cups strained canned tomatoes (juice and pulp)

Try out salt pork, add onion, and cook until golden brown. Add pork, onion, and drippings to other ingredients and mix thoroughly. Bake in loaf pan in hot oven (450° F.) 15 minutes; then decrease heat to moderate (350° F.) and bake 30 minutes longer, or until done. Serve hot or cold. Garnish with parsley. Serves 10.

**Jellied Horse-radish Molds**  
8 cloves  
2 1/2 cups water  
1 package lemon-flavored gelatin (450° F.)  
1/2 teaspoon salt  
1/2 cup prepared horse-radish  
Boil cloves in water 3 minutes. Remove cloves. Dissolve gelatin in 1 pint of this liquid. Add salt. Chill. When slightly thickened, fold in horse-radish. Turn into individual molds, filling them 1/2 full. Chill until firm. Unmold. Serve with meat loaf. This recipe makes 10 half-molds.

#### Tourist Partics to Use

##### Famed "40 and 8" Cars

Paris.—Freight cars of the type which American soldiers rode during the World war are to be utilized as "tramping camp cars" for tourist parties. It is announced.

Several hundred of the cars labeled, during the war, "horses, 8; men, 40" as an indication of load capacity, are to be painted white inside and outfitted with cots, blankets and hammock hooks and rented to parties of from six to ten persons at about \$1.35 a day or \$20 by the month.

The cars will be hooked to freight trains for travel anywhere. But if desired, the campers may buy third-class tickets and have their cars attached to regular passenger trains.

The old labels, "horses, 8; men, 40" will remain, and a third line added: "Campers, 10."

#### Nebraska Expert Calls

##### Real "Quake" Possible

Lincoln, Neb.—It is possible, but not highly probable, that Nebraska sometime may experience an earthquake of destructive intensity, according to Dr. A. L. Lugh, associate professor in geology at the University of Nebraska. Lugh made a study of conditions as a result of tremors which rocked Nebraska early this spring.

"It is evident that the region affected by the recent tremors in all probability will experience mild disturbances from time to time. It is also possible but not very probable that it may sometime experience an earthquake of destructive intensity," Lugh said.

#### Alibi Runs Speeder to

##### Hospital, Then Court

Cleveland.—A "perfect alibi" failed. So John Gilbert had to appear before Police Judge Jacob Stangel in answer to charges of speeding 64 miles an hour down an East side street here. When a motorcycle policeman stopped Gilbert, the latter said he was taking his wife to a hospital. Huston sped ahead of the Gilbert car with alarm screaming, clearing the way of traffic and pedestrians. At the hospital, attaches said Gilbert had made no reservation, doctors said nothing was wrong with Mrs. Gilbert, and Huston booked Gilbert for speeding.

#### Bowler, 80, Rolls 555

Memphis, Tenn.—Memphis bowlers, celebrating in honor of their oldest adherent of the sport, were treated to an exhibition by Jim Kelly on his eightieth birthday. The elderly man rolled three games—160, 171 and 224—for a total of 555.

#### Liner Is Shaken Up

##### by 18-Foot Shark

San Pedro, Calif.—The fruit liner Antigua docked from a Central American cruise with a tale of having bumped into a shark off Cape San Lucas that was so big the ship shook.

Capt. Edwin Boyer said the bow bumped into an 18-foot tiger shark squarely, and the sea rider was lashed so firmly that he had to stop and put the ship in reverse to shake it off.

#### The Vendetta

Among savages the unit of society is not the individual but the clan or kindred. When a member of the clan has been slain, the others do not say: "The blood of so-and-so" but "Our blood has been slain." This is the origin of the vendetta, as practiced up to recent times in Italy and by savages everywhere.

**The Cathedral of Cologne**  
The cornerstone of the great Cathedral of Cologne, Germany, was laid in 1248. In 1477 work ceased and was interrupted for 400 years, the structure being completed in 1880. The cathedral is considered one of the finest examples of Gothic architecture in Europe.

#### The Busy Queen Bee

The queen bee deposits the equivalent of her weight in eggs daily. Three days after these eggs, tiny as little pin points, are laid, the blind, footless larvae emerge. During the following six days, a total of but 144 hours, these larvae increase 1,200 times in body weight.

#### Peace in the World

**THE** question of peace has never more insistently occupied men's attention than it does today. And yet, in spite of all the thought that is being given to this question, peace seems still afar off.

We have advanced to the point of looking for a world peace—a comprehensive peace—but mankind generally does not understand the idea of peace in its essence. Apart from the multiplicity of problems to be resolved into harmony, there is a complexity of beliefs regarding what constitutes peace. Men believe there are many phases of peace—the peace of the individual, of the home, of industry, of the nation.

Peace is not primarily the absence of sickness, the elimination of strife in the home or society, nor the absence of war among the nations. The absence of these things is assured as peace is gained, but is not peace in itself, for peace is the realization of the omnipresence of God, good. All strife is strife within the human soul—mind, strife as between the highest good realizable and something lower than the best.

Even when two or more individuals seem to be engaged in strife the problem is reducible to the conflict between good and evil within the consciousness of those concerned. If good predominates in one's consciousness the strife will in that measure diminish; for without love cannot exist, nor selfishness eliminate selfishness, the substitution of love for hate, and selfishness for selflessness, must finally bring about a complete cessation of clamor for all. Mary Baker Eddy says in her Message to The Mother Church for 1900 (p. 8): "When a man begins to quarrel with himself he stops quarrelling with others." The quarrel with himself is the strife of good with evil, the strife of the higher with the lower; and it is a strife which can have but one end, namely, peace, for the divine Mind consciously expressed dispels and destroys that which is unreal and false.

Just as strife touches only the so-called human mind, so peace is realized only as the presence of God, divine Mind, is understood. There is one infinite peace, the peace of God, and man today must find that peace before they can find its effects, either individually, in the home, in business, in social circles, or in international questions.

Today men say that peace depends upon the turn of events in the world's affairs—events such as partial or total disarmament, or upon other international questions of the moment. Peace, however, does not depend upon these events; these events depend upon humanity's realization of peace. The world is where it is today because peace as the result of knowing God is not generally realized. Mankind is not yet awake to the real meaning of peace, and no fully satisfactory result can possibly be reached until the peoples of the world realize that peace does not depend upon single or contingent events, but on the presence of God in the heart.

Every man who turns away from contention and strife in the human field and holds his thought unreservedly to God, will find peace from all the strife which seems to press about him. He will find his feet on the rock which cannot be moved, for he will be supported and sustained by the infinite God. This assuredly is the meaning of Christ Jesus' statement: "Peace I leave with you, my peace I give unto you; not as the world giveth, give I unto you. Let not your heart be troubled, neither let it be afraid." (John 14:27). The issues of the nations can be resolved only as this peace is understood; and each man who seeks, finds, and holds fast to the presence of the infinite is doing much to promote world peace.

The question arises, if the other man does not cease to oppose, is he to have the advantage of his contention? The wrong qualities which lead to strife are the opposites of the attributes of God, and they fall powerless before the demonstration of God's presence as Love. Seeing through the mist of evil and beholding only God, good, in his neighbor, one will find indeed that only God is there, and that man is undisturbed by any evil force. This is the demonstration of Christian Science, the realization of God as ever present and all-powerful. It is the demonstration of peace in the individual heart; and because nations are composed of individuals it is by right thinking about God and about peace that peace will come to a troubled world.—The Christian Science Monitor.

#### Had No Generators

The Bureau of Standards says that no early automobiles had generators. Some used dry batteries and some magnets for ignition. Acetylene or oil lights were used. The generator came in with the self-starter.

#### Electric Fishes

There are several kinds of electric fishes, but the electric eel is the only one known to hunt with electricity, notes a writer in the New York Herald Tribune. Upon needing a fish it sends out a discharge which paralyzes its victim. If not swallowed the fish will recover in from ten to fifteen minutes. Electric eels were first described scientifically in 1729. Subsequent to that time they have been objects of superstition in their native South America, and have been used for medicinal purposes. Few scientific experiments have been carried on with them because of the difficulty of bringing them to this country.

#### The Percheron Breed

Some historians believe modern Percherons are mixed with Arabian blood introduced into La Perche by captive Arabian horses brought from the Holy Land during the crusades. Others say this had little if any influence on the Percheron breed, but admit that Arabian stallions were likely brought to France by homecoming crusaders.

#### Founder of St. Bridget Order

St. Bridget, called "the most famous daughter of the north," was the founder of the St. Bridget Order and built the first convent of the order in 1370 in the picturesque little city of Vadstena at Lake Vattern in central Sweden. When she died in Rome in 1373 her body was carried on foot all the way to the convent church in Vadstena, where it is still interred.

**Forest Management in Canada**  
Under intensive methods of silviculture the forests of France produce, on the average, 44 cubic feet of timber per acre each year; in Germany the average is 50 cubic feet per acre. While such intensive methods are inapplicable in Canada at present, it is estimated by the forest service department of the interior, that, if the accessible and productive forest area in Canada were managed so as to produce even 10 cubic feet of wood per acre, it would practically replace the present annual depletion through cutting, fire, and disease.—Montreal Herald.

**Invention of Friction Match**  
The first true friction match was not invented until 1827 by a man named John Walker of Stockton-on-Tees, Durham, England. Ignition of sulphur and phosphorus by friction was discovered by Godfrey Haukwitz in 1680, but it was 160 years before this discovery was applied to matches.

**Indians in Majority**  
Native Indians constitute the vast majority of the population of Peru, according to the census.

## Assessment Roll Newport Township

Town of Newport  
Township 46 N Range 11  
A correct list of all real estate and personal property in the Town of Newport, with the assessed value thereon as extended for the year 1935 and published as required by Statute, is published in this issue.

It is recommended that any taxpayer who believes that their assessment is in error, should file objection with the Board of Review immediately. This Board is set up purposefully to hear objections and equalize assessed values.

# Assessment Roll

## Lake Villa Township

A correct list of all real estate and personal property in the Town of Lake Villa with the assessed value thereon as extended for the year 1935 and published as required by law, in published in this issue.

It is recommended that any taxpayer who believes that his assessment is in error should file objection with the Board of Review immediately. This Board is to sit upon purpose to hear objections and equalize assessed values.

Address: Board of Review,  
Court House,  
Waukegan, Illinois
